and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

We pay enough for local and long distance fees from our home. We have a business and our cell phone is a vital link for our business. We are a small mom and pop company. We don't have a large budget. If we don't get calls when we are out we don't get sales. If this goes into effect, we may have to layoff an employee. With the job market the way it is, do you want to be the one that makes that decision? We will let people know that this is the case. You're to blame!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Kathy Hustak
